

ADA NATURE AQUARIUM

CO₂ Bubble Counter for Large Aquariums

New! CO₂ TWIST COUNTER

Available on February 15, 2022

CO₂ Twist Counter is a large CO₂ bubble counter that can be used with Pollen Glass Large as well as Pollen Glass Beetle. It produces large CO₂ bubbles spiraling up in the counter, which allows you to easily check CO₂ output even for large size aquariums that usually require more CO₂.

CO₂ Twist Counter, with a practical and unique design, can be a stylish addition to your aquarium.

*Please note that each product is hand manufactured by glass craftsmen. We may not be able to fulfill your order at the time of purchase or in one shipment due to volume of orders.
