

TWINSTAR AIR DIFFUSER

HANDMADE DIFFUSER.

It goes through 10 processes to a TWINSTAR DIFFUSER.
For the best quality, all are made by hand.

TWINSTAR QUALITY.

Like every TWINSTAR-designed case, it undergoes thousands of hours of testing throughout the design and manufacturing process. So not only it does look great, but it's also built to protect your diffuser from scratches.

SAND BROWN STONE. ACRYLIC DESIGN WITH TRANSPARENCY AS GLASS.

The TWINSTAR diffusers are designed and manufactured with ultra-precision molds for a brilliant design and high transparency as glass. The high transparent design and the sand brown stone combination turn it into the diffuser with the most beautiful design.

24mm.
Large size.

19mm.
Medium size.

A collection of clear plastic air diffusers with brown porous filters, scattered on a reflective surface. The diffusers are of various sizes and shapes, some with long tubes and others with shorter ones. The filters are circular and have a porous, sponge-like texture. The background is a gradient from light to dark, and the surface is highly reflective, creating clear reflections of the diffusers.

**TWINSTAR AIR DIFFUSER
FOR AQUARIUM FISHES.**
