

Cabochon Ruby Information of resale

【 Shipment will start in late August 】

Due to a problem in manufacturing supply, we regrettably discontinued the sales of the glass back-flow prevention valve "Cabochon Ruby" about two years ago. Today, we are happy to inform you that we are back on track to manufacture it again. And we will start offering it under the same product name from the above schedule. Please note that the price is significantly higher than the previous one, due to the soaring cost of raw materials and the product is hand-made by glass craftsmen. Please also note that although we have secured a sufficient quantity for the first shipment, it may take some time to ship, or we may have to adjust the shipping quantity depending on the circumstances of your order.

| Product Code | EAN Code | Product Name |
|--------------|---------------|----------------------|
| 102-205 | 4537934022052 | Cabochon Ruby |

***Please note that the product code and EAN code have been changed from the previous Cabochon Ruby.**
