

DOOA, an inspiring brand, helps you enjoy aquatic plants more freely. Minimal and easy, and designed as a platform allowing everyone to nurture plants indoors. Feel closer to nature, and bring beauty into your life.

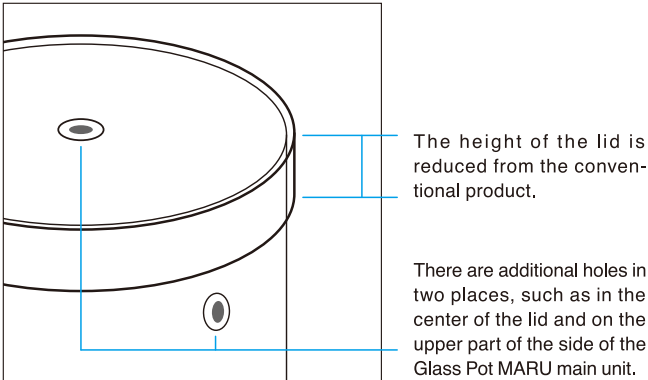

Glass Pot MARU 95

with additional holes on the side and lid

【 Available for shipment now 】

We are pleased to announce the release of "Glass Pot MARU 95", a new version of our popular Glass Pot MARU, with additional holes for ventilation. The size and shape are the same as the conventional Glass Pot MARU, but the additional holes on the upper part of the side and in the center of the lid help maintain moderate humidity and reduce fogging of the glass surface. The shape is suitable for growing tropical plants in glass containers, making it ideal for the production of mini Paludarium.

*The current Glass Pot MARU (Product Code 151-301) will be discontinued when the stock runs out.
